READ CAREFULLY

Before Ordering Bulbs

Before deciding where you are going to buy your Dutch Bulbs we wish you to remember that our bulbs are especially grown for us on contract by one of the best of the Holland Bulb growers. We pay them an extra price for especially good bulbs of the finest quality and they are not to be compared with the second quality bulbs often sent out for prices a little cheaper.

Order Early

We cannot promise to fill orders for Dutch Bulbs later than December 15th and urgently request our customers and friends to see that their orders reach us before that date.

Shipping Instructions

It will be noted that the prices of "each" and "ten's" are quoted Postpaid. These will be sent by parcel post, postage paid to any point in the United States east of the Mississippi River. For points west of the Mississippi River and Canada, add 10% to the amount of the order. Where it is not specified as "postpaid" or where indicated "not postpaid", such as prices per 100, the bulbs will be forwarded by express, purchaser paying charges.

Parcel Post Rates

For those of our customers who prefer to receive by parcel post the bulbs quoted as "not postpaid," we will be pleased to forward them by mail at the following additional cost:

2nd zone add 10c per 100 bulbs.	5th zone add 25c per 100 bulbs.
3rd zone add 15c per 100 bulbs.	6th zone add 35c per 100 bulbs.
4th zone add 20c per 100 bulbs.	7th zone add 50c per 100 bulbs.

Substitutions

It sometimes occurs that stock of some varieties becomes exhausted before the close of the season, in which case we ask the liberty of substituting others of the same color and price. We assure you that these varieties will be equally as good, if not superior to the ones ordered.

Prices

Except where noted, 25 to 250 bulbs of one variety at the 100 rate and over 250 at the 1000 rate. Where the price per 1000 is not given it may be figured at 10 times the price per 100 less 5%.

Collections

Order Special Collections by number. It is not necessary to write out the name of the collection.

Harris' Dutch Bulbs

for FALL PLANTING

Paper White Narcissus growing in pebbles and water. See description on page 16.

The Easiest Flowers to Raise

It is so easy to have a beautiful bed or border of Tulips, Daffodils, Hyacinths, etc., that you should not miss the opportunity this fall to make a good planting of Harris' Dutch Bulbs. It is only necessary to put them in the ground in the fall and then, next spring, as soon as the snow disappears you can begin to enjoy the welcome and glorious colorings.

Good Bulbs are Necessary

It is impossible to have good flowers next spring unless you plant bulbs of the best quality, no matter how painstaking you are in growing them. On the other hand, Harris' bulbs are of a standard of quality that assures you handsome flowers. They are grown especially for us and are not bought on the open market. Not only are they of the best quality, but they are true to name, and we do not substitute varieties. There is a lot of difference in quality between Harris' bulbs and some that are sold.

JOSEPH HARRIS COMPANY
COLDWATER, NEW YORK

TULIPS

Harris' Sunset Mixture of Tall Tulips including Darwins, Cottages and Rembrandts.

Harris' Sunset Mixture of Tall Tulips **Darwin, Cottage and Rembrandt**

This special mixture is the finest collection of tulips for planting in clusters or groups in front of the shrubbery, among the perennials, or in large beds in the garden.

We made up this mixture by putting together the best colors of the Darwin, Cottage, and Rembrandt Tulips. This will give a longer season of bloom and flowers of almost every color imaginable, including deep violet, maroon, bright red, rose, lilac, lavender, bronze, brown, yellow, pink and striped.

As we have considerable pride in this mixture, we take a lot of pains in making it as fine as possible. We do not offer it as a low-priced bargain, but as a mixture of exceptional quality.

Postpaid prices: 50c per 10; \$4.50 per 100.

Not postpaid prices: \$4.25 per 100; \$39.00 per 1000.

"You are certainly the people that deliver the goods promptly, for which please accept my thanks. The package of 210 Tulips are real nice bulbs." Lewis E. Niles, Syracuse, N. Y.

DARWIN TULIPS

Darwin Tulips, Louis XIV (upper)
Farcombe Saunders

If there is only one type of Tulip you can plant, accept Darwins; they will bring you more joy than any other, because of their strong, long stems and fine colors.

They excel in size, height and vigorousness, and they are the best to cut. A bed of Darwins in the corner by the porch, a large clump in front of the shrubs or a big bed bordering the front lawn is a joy worth many times the cost. Their season of bloom can be somewhat varied by the location of planting and the degree of protection given them.

Darwins and Breeders

As the Darwins and Breeders are really all of the same class, being simply a different selection of colors, we have put them altogether under the name of

Darwins.

Most varieties of Cottage and Rembrandt Tulips are sufficiently tall and late to plant along with Darwins. In this way, both

the length of the season and the selection of colors can be greatly increased.

Eight New and Rare Varieties

If you want something extra fine and very exclusive, you will thoroughly enjoy a collection of these eight new kinds.

Afterglow. An unusually large and tall bright rosy-orange with salmon-tinted edges and bright orange inside. 25c each; \$2.00 per 10 postpaid.

City of Haarlem. A new immense scarlet of unusual beauty and size; the brightest red Darwin. 40c each; \$3.50 per 10 postpaid.

King George V. An exceptionally large and brilliant carmine-red. A wonderful tulip and a splendid forcer. 55c each; \$5.00 per 10 postpaid.

Louis XIV. A rich dark-purple with a shading of steel-blue, heavily flushed bronze and edged golden-brown. An enormous flower on an exceedingly tall and stiff stem. The largest Tulip we have ever seen. 25c each; \$2.00 per 10 postpaid; \$18.00 per 100.

Bachus. A mammoth dark plum-purple of immense size and stately bearing. In the same class with Louis XIV. 25c each; \$2.00 per 10 postpaid; \$17.00 per 100.

Chester J. Hunt. A tall growing bright blue-violet. A color that is quite different, and the best "blue." 35c each; \$3.00 per 10 postpaid.

Indian Chief. One of the largest and most beautiful Breeder Tulips ever seen. The color is a deep Indian or coppery flushed with a tinge of purple. \$1.25 each; \$12.00 per 10.

St. James. A superbly large flower of deep rosy-gold, edged with golden brown. 20c each; \$1.75 per 10 postpaid.

No. 42. Rarity Collection of Darwin Tulips. One bulb each of the eight above named varieties for \$3.00 postpaid.

King Harold. A magnificent tall dark-red.....	.60	4.25
No. 33 —Three bulbs each of the above four varieties, \$.55 postpaid.		
No. 34 —Five bulbs each of the above four varieties, \$1.00 postpaid.		

Harris' Special Mixtures of Darwin Tulips

Our mixtures are not of the ordinary sort, but are very carefully made up by us. We use all named varieties and the bulbs are of the same good quality as those we offer as separate kinds.

Darwin Color Mixture

A mixture made up of six different varieties, each variety being one of the leading colors. This makes a perfectly balanced mixture of colors.

Postpaid prices: 40c per 10; \$2.70 per 100.

Not postpaid prices: \$2.50 per 100; \$20.00 per 1000.

Darwin Variety Mixture

This mixture includes some of all the varieties we have (except the eight rare kinds), and for a general mixture of fine Tulips, cannot be beaten at any price.

Postpaid prices: 50c per 10; \$3.70 per 100.

Not postpaid prices: \$3.50 per 100; \$30.00 per 1000.

Darwin Odd-Color Mixture (Breeder Mixture)

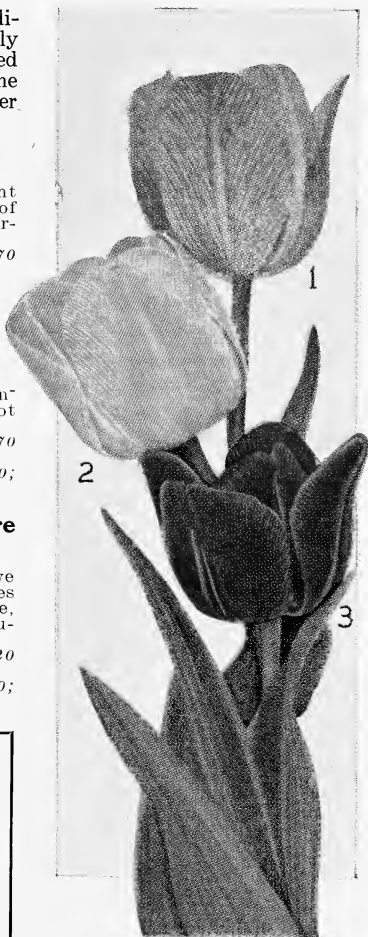

A very interesting mixture we make up from the different shades bronze, violet, brown, lilac, orange, etc. These are all those Tulips usually classed as "Breeders."

Postpaid prices: 65c per 10; \$5.20 per 100.

Not postpaid prices: \$5.00 per 100; \$47.00 per 1000.

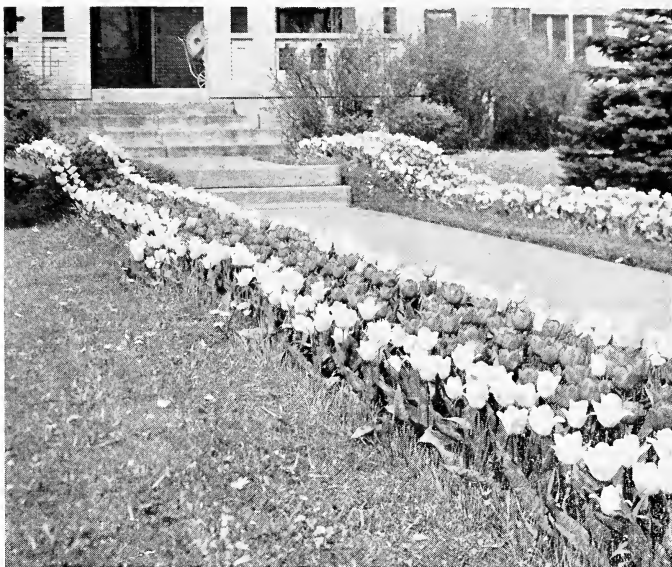

A GOOD BOOK

We have a most interesting book on the growing of Hyacinths, Tulips and Narcissus, written in Holland by a Holland bulb grower. One 90c copy of "Dutch Bulbs, Their History and Treatment" will be included **free** with every bulb order amounting to \$10 or over, if you ask us for it.

Darwin Tulips, (1) Dream, (2) Clara Butt, (3) Faust.

SINGLE EARLY TULIPS

Single Early Tulips Used As a Border

The Single Early Tulips are really the most delightful, because they come into bloom so early in the spring that their rows or clusters of bright glistening colors are most welcome. Another advantage is that they are early enough so the beds can be used for other plants during the summer. Also, the fact that they are lower growing makes them especially desirable for many locations.

Our Eight Best Varieties for Outdoor Planting

These eight are carefully chosen for their desirable colors, splendid types and good growing qualities. They are the best varieties of their colors that we know of.

Keizer kroon. We consider this the best and most showy of outdoor bedders. The color is a bright scarlet-red with a broad golden-yellow margin. The flowers are large and the stems are long and stiff, holding the flower upright for a long time. *90c per 10 postpaid; \$7.25 per 100.*

Chrysolora. The standard Early Tulip for outdoor bedding. It is a pure, rich yellow, of good large size and beautiful shape. *70c per 10 postpaid; \$5.25 per 100.*

Prosperity. The best bright-pink for outdoor bedding. The flowers are of good size on tall stems, holding the flower well above the foliage. It blooms very early and very uniformly. The color is white, overlaid with a bright deep-rose, giving the general color effect of a lively, bright pink. *60c per 10 postpaid; \$4.30 per 100.*

White Hawk. The largest and earliest of the White Early Tulips. *60c per 10 postpaid; \$4.50 per 100.*

Cottage Maid. The popular bright-pink for outdoor bedding, as well as late forcing. It is creamy white with the petals broadly margined a deep pink. *65c per 10 postpaid; \$5.00 per 100.*

Artus. A glowing scarlet with a clear yellow center; the same color as Vermilion Brilliant. *55c per 10 postpaid; \$4.00 per 100.*

Prince of Austria. A sweet-scented, brilliant orange-red. Very early, large and showy flowers on tall stems. *65c per 10 postpaid; \$4.75 per 100.*

Duchess de Parma. A tall orange-red, margined yellow. Well shaped flowers and good strong stems, making a splendid sort for outdoor bedding. *75c per 10 postpaid; \$5.90 per 100.*

No. 30.—Four bulbs each of the eight best varieties, *\$1.80 postpaid.*

Harris' Color Mixture. A special mixture we make by mixing together an equal number of the different colors described above. This is an especially high-grade mixture.

Postpaid prices: 45c per 10; \$3.70 per 100.

Not postpaid prices: \$3.50 per 100; \$32.00 per 1000.

Read page 2 before ordering

COTTAGE TULIPS

Single Late or May Flowering

The Tulips of this class owe their name to the fact that many of them have been found growing in the gardens of country houses and cottages in England and France. The number of varieties is enormous and all colors imaginable are found among them.

They are deservedly becoming more popular, because they fill in the gap between Single Early Tulips and the Darwins.

In fact, they can be planted with the Darwins, being nearly as tall and blooming almost the same time. They are in a different range of colors, thus adding many new colors to a planting of tulips.

	10 Post- paid	100 Not Postpaid
Bouton D'Or. (Golden Beauty). A medium sized, bright, deep golden yellow on tall stems. Excellent for cut flowers.	\$.55	\$4.00
Fairy Queen. Charming flowers of rosy-heliotrope with a broad amber-yellow margin. The beautiful large flowers are on tall graceful stems and last a long time. It is very much like the Darwins and can be planted with them.	.60	4.25
Inglescombe Yellow. Large, glossy, canary-yellow of globular form, like the Darwins and often called "Yellow Darwin".	.50	3.60
Isabella. (Shandon Bells or Blushing Bride). Creamy white, prettily shaded with silvery carmine-rose, and turns to a bright rose tinted with white. An early and attractive flower.	.55	4.00
La Merveille. Scarlet, suffused with apricot orange. Very early with tall stems and large wide-open flowers.	.50	3.50
Picotee. (Maiden's Blush). White, margined with bright-rose. A most beautiful flower with gracefully reflexing petals.	.55	4.00
John Ruskin. A very pretty and striking novelty. The color is a lovely combination of rosy-apricot, with a yellow edge. It is almost as large and tall as Darwins.	.70	5.50
The Fawn. A large egg-shaped flower of a delicate rosy-fawn color that changes to a pleasing bluish rose as the flower ages. Tall stems.	.60	4.50
Hobbema. (Sara Bernhardt). A unique and attractive "crushed strawberry" color. Large flowers on good stems.	.80	6.50
No. 64 —Three bulbs each of the nine varieties, \$1.50 postpaid.		

Harris' Variety Mixture of Cottage Tulips

A special high-grade mixture which we make up ourselves from separate varieties, including all of those named above. This is a wonderful mixture for planting in along the front of the shrubbery or hardy perennial border.

Postpaid prices: 55c per 10; \$4.00 per 100.

Not postpaid prices: \$3.75 per 100; \$35.50 per 1000.

A NEW BOOK

The Book of Bulbs, by Frederick Frye Rockwell. Not a botanical survey of bulbs (although varieties are carefully described and distinguished), but a garden book for every one from the amateur enthusiast to the professional horticulturist.

Graphically and authoritatively the chapters deal with the planning and making of bulb gardens, the naturalization of bulbs, their propagation, and protection from insects and diseases. Sent to any address for \$3.00, or will be sent **free** with a bulb order amounting to \$30.00 or over.

"All flowering bulbs and plants arrived in good condition. Thanking you for your courtesy in sending promptly." Mrs. Wm. H. Keesler.

"I want to tell you I received those prize plants and how pleased I am with them. They were all so nice and large. You can consider me a customer." Mrs. H. H. Steere, Norwich, Conn.

"The perennial plants that I had from Moreton Farm this fall were the best I have ever seen. Came through in perfect condition." Mrs. C. P. Gowing, Wakefield, Mass.

Cottage Tulips. Fairy Queen, Inglescombe Yellow, Isabella, and LaMerveille.

DOUBLE EARLY TULIPS

The Double Flowering Tulips come into bloom a little later than the Early Flowering Single Varieties and they are used extensively for growing indoors, as a few flowers in a pot make more of a showing than the single sorts. We have very carefully considered the long list of Double Tulips and selected the seven most satisfactory varieties we could find for growing indoors as well as for planting in the garden.

	10 Post- paid	100 Not Postpaid
Murillo. The most popular light-pink for gardens and winter flowering.....	\$.55	\$4.00
Boule de Nieve. Best double peony-like white.....	.70	5.50
Couronne D'Or. An extra fine orange-yellow.....	.70	5.25
Imperator Rubrorum. The best bright-scarlet....	.85	7.00
Tournesol. (Red and Yellow). A deep scarlet broadly margined with bright yellow.....	.80	6.25
El Toreador. The large rich orange-scarlet with a broad margin of dull-yellow.....	.95	8.00
Azalea. A most excellent bright cerise-red.....	.95	8.00
Electra. The best rose-pink double we have ever seen. The flowers are very large and full double.....	1.15	9.50
Harris' Variety Mixture —Very carefully made from the above varieties.		

Postpaid prices: 70c per 10; \$6.20 per 100.

Not postpaid prices: \$6.00 per 100; \$55.00 per 1000.

No. 35—Trial Collection of two bulbs each of the eight varieties named above for \$1.10 postpaid.

A beautiful bed of Double Early Tulips, Murillo.

PARROT TULIPS

Superfine Mixture. Parrot Tulips are Cottage Tulips with the edges of the petals lacinated or cut. These large, graceful flowers, with ragged edges are exceedingly pretty and attractive. When the flower is in bud it somewhat resembles the head of a parrot, hence the name. Our mixture includes several different colors, some with very interesting markings. 55c per 10 postpaid; \$4.00 per 100; \$36.00 per 1000, not postpaid.

REMBRANDT TULIPS

The Rembrandts are large, tall, late tulips like the Darwins and can be planted together with them. They are a most interesting class and should always be included in a planting of Darwins or Cottage Tulips.

The flowers are all striped and mottled in different colors, many of them very unusual and attractive. 65c per 10, postpaid; \$5.00 per 100 not postpaid.

"I am so glad to be able to tell you that my plants came in good condition." Mrs. A. K. Liedtke, Paducah, Texas.

"The Iris I wrote you about arrived yesterday, and must say it is the finest I ever had." John Blim, Wassauc, N. Y.

HARRIS' EXHIBITION HYACINTHS

There is no more delightful flower imaginable for the early garden or for blooming in the living room during the cold winter months. There are a few other flowers with colors as clear and pure.

As the result of trying out the different varieties ourselves, we have found these six named below as being the most satisfactory. Also the quality of our bulbs is the best, being grown especially for us by one of the best Holland growers. They are all good large bulbs and free from disease. There are no prettier or more satisfactory flowers for growing in the house and there is no reason why you cannot have beautiful Hyacinths all winter for yourself or to present to your friends.

L'Innocence. Beautiful long trusses of intense clear white.

City of Haarlem. The best yellow. The color is a clear, rich, amber yellow with large well-formed, compact trusses.

Gertrude. A bright deep-pink of very large size with compact trusses of large, wide open flowers.

Gigantea. A most graceful and attractive soft pink.

Queen of the Blues. The leading and most popular clear, light blue.

Grand Maitre. The best clear, dark blue.

Price

Any of the above varieties: 30c each; \$2.70 per 10 postpaid; \$24.00 per 100 not postpaid.

No. 29—Special Exhibition Hyacinth Collection of one bulb each of the six above named varieties for \$1.50 postpaid.

No. 28—A Special Collection of Exhibition Hyacinths for the living room, consisting of three bulbs of any one color (your choice) together with one of our special Bulb Dishes and sufficient Bulb Fiber, all for \$1.25 postpaid. Complete directions for growing them will be included in each order.

A dish or pot of well started Hyacinths makes a most acceptable Christmas present.

Simply order Collection No. 28—\$1.25.

Harris' Exhibition Hyacinths (1) Queen of the Blues (2) Gertrude.

HARRIS' SELECT HYACINTHS

The Most Popular for Planting Outdoors

Although our Exhibition Hyacinths are the very finest for planting both indoors and in the garden, yet we have these same bulbs in a slightly smaller size at a much lower price. These are the same bulbs as the Exhibition, except that they have not grown to be quite as large. These bulbs grow as well and the flowers are almost as large as our Exhibition Hyacinths. If grown indoors use four bulbs in our Special Bulb Dish or a 6-inch pot.

L'Innocence
Gertrude

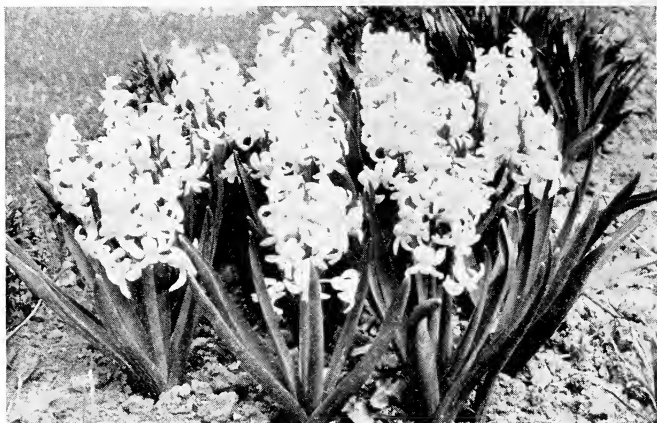

Grand Maitre
Queen of the Blues

City of Haarlem
Gigantea

Price of any of the above varieties: 17c each; \$1.50 per 10, postpaid; \$13.00 per 100, not postpaid.

No. 26—Special Collection of two each of the above named six varieties for \$1.80 postpaid. This will make a very pretty little cluster of bright colors very early in the spring.

HYACINTHS

Harris' Select Hyacinths in the Garden.

HARRIS' DUTCH ROMAN HYACINTHS For Extra Early Flowering in the House

The bulbs of the Dutch Roman Hyacinths are a little smaller than those of the Select Hyacinths, while the flowers are of the same good quality and nearly as large. Many prefer them to the larger ones, as the flowers do not get as top-heavy. They will also bloom in the house earlier than the other Hyacinths. They are fine for either outdoors or in the house, and are more satisfactory than French Roman Hyacinths.

The varieties are the same as the Exhibition Hyacinths described above.

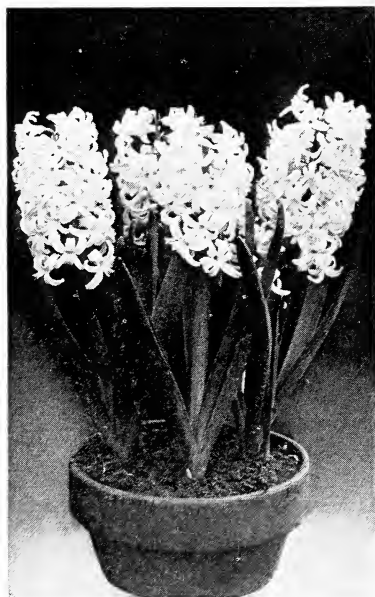

**L'Innocence
Gertrude**

**Grand Maitre
Queen of the Blues**

**City of Haarlem
Gigantea**

Price of any of the six varieties: 14c each; \$1.20 per 10, postpaid; \$9.80 per 100 not postpaid.

No. 25—Special Collection of four bulbs of any color (your choice), together with our Special Bulb Dish and sufficient Bulb Fiber, for \$1.00 postpaid. Complete cultural directions will accompany each order.

Dutch Roman Hyacinths, Gigantea.

NARCISSUS AND DAFFODILS

Ajax Daffodil, King Alfred

There is no class of spring - flowering bulbs that can compare with Daffodils. And there are so many different kinds, each with a grace and delicacy of form found in no other Dutch bulb, that one never tires of their beautiful, soft colors.

No flower produces such a wealth of beautiful blooms, year after year, as the different varieties of Daffodils and Narcissus; and no other flower is as democratic in its associations. Clusters of Narcissus look well in most any location, and they will thrive in almost any kind of soil, making more beautiful displays each season.

Harris' Daffodils and Narcissus are good large, solid, disease proof bulbs grown especially for us in Western New York State. They have been growing here successfully

for sometime and we can assure you that they are perfectly satisfactory in every way. In our opinion, they are far superior to some of the Southern grown Narcissus that are now coming on the market.

Ajax or Trumpet Daffodils

The Ajax or Trumpet Daffodils are the largest flowering sorts and the type most generally admired. This is the division that has the trumpet as long, or longer than the petals or wings. They are equally good for outdoor or indoor planting, being absolutely sure to bloom. The few kinds named here are the best and largest flowering varieties.

Glory of Sassenheim. A new mammoth white and yellow flower. Exceedingly large with white petals and a deep golden-yellow trumpet. A truly wonderful flower that is a splendid companion for King Alfred. 20c each; \$1.50 per 10, postpaid; \$12.00 per 100, not postpaid.

King Alfred. Here is a variety that could rightly be called the King of Daffodils, as it stands unrivalled in its combination of size, beauty, growth and earliness. The color is a uniform clear, rich, golden-yellow, while the flower is of mammoth size. 25c each; \$2.00 per 10, postpaid; \$17.00 per 100, not postpaid.

Golden Spur. An extra early, rich golden-yellow of even color with a large trumpet. 15c each; \$1.10 per 10, postpaid; \$8.00 per 100, not postpaid.

Victoria. An early and very free-flowering variety. The flowers have large fluted trumpets of a rich clear yellow, while the petals are almost white. 15c each; \$1.00 per 10, postpaid; \$7.50 per 100, not postpaid.

Emperor. The immense trumpet is golden-yellow and the petals deep primrose. It is a very free-flowering variety that produces big, solid flowers of great substance. 15c each; \$1.00 per 10, postpaid; \$7.50 per 100, not postpaid.

Van Wavern's Giant. The largest of all Daffodils. The enormous bright yellow trumpet and primrose colored make a very striking flower. It remains in bloom for an unusually long period. 45c each; \$4.00 per 10, postpaid.

Olympia. Another giant flowering kind in the same class as the four just described. It is of the same coloring as Emperor, but much larger and especially fine for forcing in the house. 40c each; \$3.50 per 10, postpaid.

Robert Sydenham. One of the very newest introductions, and a marvelous exhibition variety for growing in the house. The petals are a sulphur yellow and the immense yellow trumpet is deeply waved and frilled. 75c each, postpaid.

Daffodils Blooming All Winter

For winter blooming in the house we suggest the following special offers. They are all of different colors and different seasons of bloom.

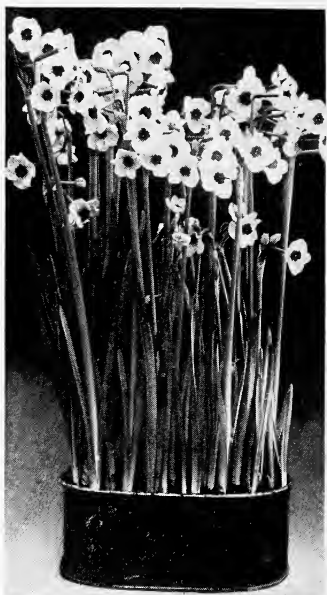

No. 31—4 bulbs each of Golden Spur, Laurens Koster, Glory of Sassenheim, and Sir Watkins. \$1.75 postpaid.

No. 46—The same collection of bulbs together with 4 Bulb Dishes and sufficient Bulb Fiber. \$3.90 postpaid.

NARCISSUS AND DAFFODILS

Narcissus, Sir Watkins

Narcissus, Laurens Koster, growing in our Special Bulb Dish with Prepared Bulb Fiber.

Short Trumpet Narcissus

Sir Watkins. The king of the short-cupped Daffodils. The large, wavy petals are white slightly tinted cream, and the deep yellow, well-frilled cup is about one inch deep. It is the largest of this class and a good vigorous grower for out-of-doors or forcing. *15c each; \$1.10 per 10 postpaid; \$8.00 per 100 not postpaid.*

Lucifer. A showy and striking variety with a brilliant little ruffled cup of bright yellow edged with scarlet. The long spreading petals are a pure sulphur-white, making a very contrasty flower. *20c each; \$1.50 per doz. postpaid; \$12.00 per 100 not postpaid.*

Conspicuous. One of the brightest for naturalizing in the border, or for cutting; lasting longer when cut than most sorts. The petals are a soft light-yellow, while the broad spreading cup is illuminated with scarlet. *10c each; 85c per 10 postpaid; \$6.00 per 100 not postpaid.*

Firebrand. The long white petals are yellow at the base. The cup is about one-half inch deep and well ruffled, and the upper half of the ruffled cup is a bright Chinese Orange and the lower half yellow. A very pleasing combination. *15c each; \$1.00 per 10 postpaid; \$7.00 per 100 not postpaid.*

White Lady. An exquisite flower with broad overlapping petals of pure white and a dainty crinkled cup of a bright yellow. *20c each; \$1.50 per 10 postpaid.*

Lowdham Beauty. A beautiful free-blooming pure white with broad petals and a small wide open cup of light yellow. *17c each; \$1.30 per 10 postpaid; \$10.00 per 100 not postpaid.*

Southern Gem. A new white variety with a wide yellow cup. This is extra fine to grow indoors for unusually good exhibition blooms. *30c each; \$2.50 per 10 postpaid.*

Miscellaneous Narcissus

Laurens Koster. (Narcissus Poetaz). One of the finest flowers for growing in the living room. It is a new production and one of the best in recent years. The graceful clusters of 10 to 15 flowers to a stem are sure to please. The color is pure white with a bright orange cup. They are very hardy for out-door planting, and have a more delicate fragrance than Paper Whites. *15c each; 95c per 10 postpaid; \$7.00 per 100 not postpaid.*

Von Sion. (Double Narcissus). The true old Dutch Daffodil that has been a popular favorite for so many years. It is exceedingly hardy and persistent, blooming profusely under almost any condition. The trumpet is very broad and full double. *15c each; \$1.00 per 10, postpaid; \$8.00 per 100 not postpaid.*

Poeticus Ornatus. The early flowering Poeticus so popular for winter forcing in pots as well as for garden and naturalizing. The petals are pure white while the yellow cup is very short and margined a deep scarlet. *10c each; 75c per 10 postpaid; \$5.00 per 100 not postpaid.*

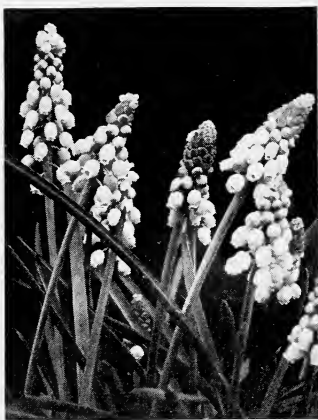

Jonquils, Single. Deliciously sweet little bright yellow flowers borne in clusters. *15c each; 95c per 10 postpaid; \$7.00 per 100 not postpaid.*

Pheasants Eye. A very fragrant later flowering sort. Clusters of white flowers with little orange cups. Very pretty. *10c each; 65c per 10 postpaid; \$4.00 per 100 not postpaid.*

MISCELLANEOUS SPRING FLOWERING BULBS

Crocus

Muscaria or Grape Hyacinth

Crocus

Next to Snowdrops, Crocus are the earliest of all bulbs to bloom. Long before Tulips and Daffodils appear, these welcome little flowers have thrust their way up to assure us that Spring is at our door.

Although they will grow most anywhere, they are at their best when planted in masses or "drifts" over the lawn, and throughout the garden. A favorite method of planting is to scatter them broadcast over the lawn and plant them wherever they land. Our bulbs are of the Mammoth Large-flowering Crocus and both the bulbs and flowers are large.

	<i>Prices Postpaid</i>	
	<i>Per doz.</i>	<i>Per 100</i>

Mont Blanc , White.....	.30	1.75
Baron von Brunow , Large blue.....	.30	1.75
Sir Walter Scott , White striped purple.....	.30	1.75

Muscaria or Grape Hyacinths

Heavenly Blue. The prettiest little flower of the early bulbs and one that should be more generously grown, both indoors in pots and outdoors in the garden. They are very early flowering and dwarf, growing 8 to 9 inches high and producing little Hyacinth-like flowers. The bulbs are perfectly hardy and increase rapidly from year to year, never failing to bloom profusely. 40c per doz.; \$3.00 per 100 postpaid.

Scilla or Star Hyacinth

Siberica. (Blue Bells). These little spring-flowering bulbs should be planted a great deal more than they are. They are perfectly hardy and bloom extremely early, laughing at storms and sleet. The beautiful little spikes of deep-blue flowers last for a long time, and the bulbs will remain for many years. 60c per doz.; \$4.50 per 100 postpaid.

Poppy-Flowered or Tuberous Anemones

Caen. (Mixed Colors). A very pleasing little plant for growing either in the living room or outdoors in the hardy border. Tubers placed in pots in September and October will bring forth a beautiful show of bloom by January and March. Use six tubers for our Special Bulb Dish. Outdoor blooming the tubers may be planted at any time from September until the ground freezes. The soil should be stamped down over the bulbs and left packed down in the spring. Mulch well over winter. 85c per doz.; \$6.50 per 100 postpaid.

Ixias

Mixed Colors. For both outdoor planting and pot culture, Ixias will be found very satisfactory and easily raised. The beautiful star-shaped flowers are borne in clusters on good clean stems about 1 ft. high, and in a wonderful variety of the most dazzling and brilliant colors. 45c per doz.; \$3.50 per 100 postpaid.

Ranunculus

French Mixed. Easily grown bulbs with large, double, buttercup-like flowers in all colors, and on stems 8 to 12 inches long. Very satisfactory and attractive. Plant 2 to 3 inches deep and 10 inches apart, after all danger of frost is past. The bulbs may be taken up in the fall. 10c each; 90c per doz.; \$7.00 per 100.

MISCELLANEOUS SPRING FLOWERING BULBS

Spanish Iris

Freesias, Purity

Spanish Iris

Of all the spring flowering bulbs there are none more interesting than Spanish Iris. The flowers are like handsome orchids and of the most delicate colorings. They make wonderful flowers to cut in the spring and as they are rather unusual it is a joy to have a bed of them.

	Postpaid Prices	
	Per doz.	Per 100
Gypsy Queen. Bronze-brown with yellow blotch...	\$1.20	\$9.00
Cajanus. Canary-yellow with orange blotches.....	1.10	8.00
King of the Whites. Pure white with small orange blotch.....	1.10	8.00
Queen of the Netherlands. Bright blue with deep yellow blotch.....	1.10	8.00
Mixed Colors.	1.00	7.80
Filifolia. The largest and earliest of the Spanish Iris. The most popular variety for growing in pots in the house. Clear deep blue color.....	1.50	10.00

Freesias

One of the most delightful of the winter flowers. The graceful sprays of trumpet-shaped flowers have a most delicious fragrance. They are unexcelled for cutting, keeping a long time in water. The unexpanded blooms opening in water, fill the air with a most delicately delightful perfume. The bulbs are not hardy and must be grown inside. Plant 12 in a 6-inch pot.

Purity. Large sprays of pure white. Selected bulbs. 30c per doz.; \$2.25 per 100 postpaid; \$20.00 per 1000 not postpaid.

New Colored Freesias

We have three new varieties of the beautiful bright colored Freesias. They are exceedingly pretty and quite unusual.

Carrie Budau. A new and improved lavender-pink, with large flowers and of good vigorous growth. 15c each; \$1.00 per 10 postpaid.

Ilena. Deep rosy lavender with a white throat and a deep orange blotch on the lower petal. Large flowers and stiff stems. 15c each; \$1.00 per 10 postpaid.

Olivette. Bright carmine red with light yellow throat, the lower petals having a deep yellow blotch with crimson veining. A fine bloomer. 15c each; \$1.00 per 10 postpaid.

Paper White Grandiflora or Polyanthus Narcissus

These are the most popular bulbs for growing in the house, being a vigorous grower and an early, sure bloomer. The large, snow-white flowers are borne in clusters. As they produce flowers very quickly, blooms may be had by Christmas.

The bulbs may be sown in either pebbles and water or in soil. Use 4 bulbs for a 6-inch bowl and 6 bulbs for our Special Bulb dish. 15c each; 3 for 40c; \$1.00 per 10 postpaid; \$7.50 per 100 not postpaid.

Grand Soleil d'Or Narcissus

These are sometimes called "Yellow Paper Whites," because they are of the same character, except that the flowers are a rich golden-yellow with deep reddish cups. They are borne in beautiful clusters on long graceful stems, and are grown in the same way as Paper Whites, using soil, pebbles, or Bulb Fiber. Dishes of both the white and yellow can be had in bloom for Christmas and make very acceptable presents. 20c each; 3 for 50c; \$1.85 per 10 postpaid; \$15.00 per 100 not postpaid.

MISCELLANEOUS SPRING FLOWERING BULBS

Autumn Flowering Crocus

Zonatus. Here is a splendid little novelty that is as interesting as it is pretty. The bulbs will bloom in a few weeks if just put on the window sill or any warm, light place. They do not need to be planted in soil or water. Just set them around the room and watch them bloom. Get quite a number of them and place a few out at a time, keeping the balance of them in a cold dark place. 10c each; 5 for 50c; 15 for 75c; 25 for \$1.00; \$4.00 per 100 postpaid.

Glory of the Snow or Chionodoxa

Luciliae. Charming small blue flowers that are extremely early, blooming about the same time as Snowdrops. They are very hardy and bloom profusely in most any location. 45c per doz.; \$3.50 per 100 postpaid.

Snowdrops or Galanthus

Single. The earliest flower to bloom, and so hardy that it minds neither snow nor sleet. Its nodding, pure white flowers are graceful and pretty. Snowdrops usually bloom a few days before Crocus and Scilla. They make an attractive appearance when planted in clumps and massed to contrast with the blue masses of Scilla. Also splendid for planting in the lawn, or along the walks and drives. 10c per doz.; \$3.00 per 100 postpaid.

Glory of the Snow

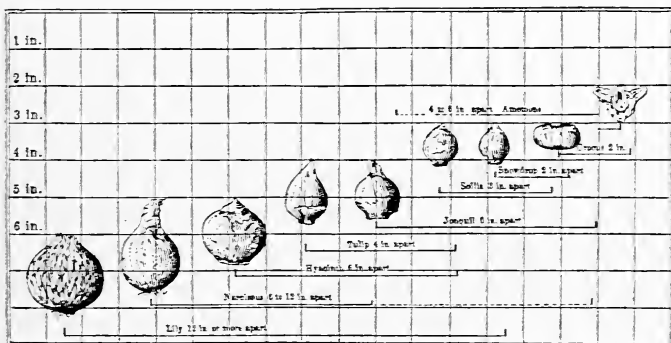

Snowdrops

Early Spring Collection

No. 36—Flowers almost as soon as the snow disappears. To acquaint you with the joys of these early flowers we will send 25 bulbs each of Snowdrops, Scilla, Glory-of-the-Snow, Crocus mixed, and Muscaria for only \$4.00 postpaid.

How and When to Plant

Bulbs for Fall planting may be set out during September, October and November, or until the ground is frozen. The diagram below indicates the depth and distance apart to plant each kind.

HARDY LILIES

There are few more interesting or attractive flowers for the hardy border than good varieties of Hardy Lilies. They are very easy to grow, and if planted carefully, they will continue to thrive for several years. They are most attractive when planted in clumps in combination with perennials or shrubs. We send complete cultural directions with every order.

New Regal Lily. (*Lilium Myriophyllum*). One of the most beautiful and satisfactory of all hardy lilies. The inside of the flower is pure white with exquisite shading of canary yellow in the throat. The outside is white suffused with a bright rose-pink. The blooms are borne in large clusters on stems three feet high. Large bulbs, *75c each; \$7.00 per 10 postpaid.*

Medium size bulbs, *40c each; \$3.50 per 10 postpaid.*

Madonna Lily. (*Lilium Candidum*). This is the old favorite and always popular white lily. It is also called "Ascension Lily," "St. Joseph's Lily," and "Annunciation Lily." It grows four feet high, bearing on one stem, during July, six to twenty large, snow-white flowers of delicious fragrance. Large sized, healthy bulbs from Northern France. *30c each; \$2.25 per 10 postpaid; \$24.00 per 100.*

Speciosum Magnificum. Much like *Rubrum*, only the growth is more robust and the flowers are a rich ruby-carmine, margined white. Very striking. *45c each; \$4.25 per 10 postpaid.*

Speciosum White. This is one of the most beautiful types of the fall flowering lilies. It grows to a height of 4 to 5 feet and is surmounted with a large cluster of very large pure white flowers. They are easy to grow and bloom from August until late fall. *45c each; \$4.25 per 10 postpaid.*

Single Tiger Lily. (*Lilium Tigrinum Splendens*). An improved variety with clusters of large nodding flowers of orange-salmon, spotted brown. Robust plants three to four feet high, blooming in August. *20c each; \$1.75 per 10 postpaid; \$15.00 per 100 not postpaid.*

Double Tiger Lily. A double form of the above. *30c each; \$2.75 per 10 postpaid; \$25.00 per 100 not postpaid.*

Pardalinum. (*Panther Lily*). An easily grown and very hardy variety. It is one of the less known native lilies from the Pacific coast. The plant grows 3 to 4 feet high and is surmounted with five to twenty flowers of bright yellow shading to orange-scarlet. Once planted they will continue to thrive well for years. Flowers in July. *30c each; \$2.75 per 10 postpaid.*

Henryi. A new, rare and very beautiful lily from China. The flower stalks are 3 to 6 feet high with five to ten bright orange-yellow flowers. This is one of the best hardy-lilies, being very robust, hardy, long-lived, and easily grown in most any soil. Blooms about Sept. 1st. Often called "Yellow *Speciosum*." *80c each; \$7.75 per 10 postpaid.*

Martagon Album. (*White Turban Lily*). One of the newer and improved varieties of the European Turk's Cap or Turban Lily. The flowers are of medium size, pure white, and freely borne, three to fifteen often being on one plant which will grow to 4 or 5 feet high. Easily grown in any good soil, blooming in July. *60c each; \$6.00 per 10 postpaid.*

Batemannai. A recent introduction from Japan that is extremely hardy and easily grown in most any location. The plants are 2 to 3 feet high with three to eight large orange-red or apricot unspotted flowers in a cluster opening upward. Blooms about August 1st. *50c each; \$4.75 per 10 postpaid.*

Testaceum. (*Nankeen Lily*). The most beautiful and graceful of all hardy lilies and one rarely seen in this country. The numerous flowers are deliciously fragrant, of a delicate creamy buff or nankeen yellow, often flushed pink and rarely dotted. Grows about 4 ft. high and blooms about July 1st. Very rare. *\$3.00 each postpaid.*

Superburn. (*American Turk's Cap Lily*). The most magnificent of our native lilies and should be more freely planted in our gardens, as it seems to thrive most any place. The numerous flowers are a brilliant orange-scarlet, shaded yellow and spotted brown and are borne from July to September. *25c each; \$2.25 per 10 postpaid.*

Croceum. A fine flowering lily of bright orange that are in a cluster opening upward. Especially good for planting in the foreground. *2 ft. high. 45c each; \$4.00 per 10 postpaid.*

SPECIAL PRICES FOR LARGE LOTS

We have quite large quantities of many varieties of plants and are in a position to make you some very attractive offers on large orders.

For lots of 50 plants and over, write us for special quotations.

HARRIS' HARDY PERENNIAL PLANTS

A beautiful garden of hardy perennials. You can easily have one like it by setting out our plants this fall.

Now is the Time to Set Out Hardy Perennial Plants

There is no better time than September to plant out most varieties of hardy plants. At this time of the year there is a letting-up of plant growth and a starting of a new root growth, preparatory to pushing up the flowers for next spring and summer. For this reason it is the best time to make your changes in perennial planting and it is also the best time for us to dig and ship the roots. Plants set out **early** in the fall will make a great deal better showing next summer.

Planning the Garden

The most effective way of planting is in groups of three to a dozen plants with the taller growing kinds at the back. The most satisfactory method is to very carefully plan your border or garden for several years ahead so that you will be working to some definite idea. Then carefully consider all varieties as to height, color, blooming period and foliage in order to ascertain whether or not they will fit into your plans.

The Choicest Varieties

We are continually trying out all of the different varieties in our fields and we offer you only those kinds we find are really worth while and that will grow easily and satisfactorily.

Lowest Prices

You will find, when you compare the quality of our plants that our prices are really very low, especially when you consider that

ALL PLANTS ARE SENT PREPAID

To any point in the U. S. and east of the Mississippi River.

Unless otherwise stated, all plants are sent by parcel post or express, prepaid at the prices named. If plants are wanted shipped by express collect, 10% may be deducted from the prepaid price.

If plants are to be shipped to a point west of the Mississippi River, by prepaid parcel post, add 10% to the price of the plants.

When Plants Are Received

Unless they can be planted at once, the best plan is to "heel" them into the ground in a moist, shady place. Dig a shallow, sloping trench, spread the roots out rather thinly in it, and cover so that the roots are fully underground, and water them well. Many plants may be cared for in this way in a very short time, and if shaded, will keep for several days safely.

It must be distinctly understood by the purchaser that we use utmost care to have all plants of strong and healthy growth, and true to name. But so much depends upon the care such plants have, and the season following the planting, that we feel our responsibility must end when plants have reached the purchaser in good, healthy condition. If they cannot be accepted on these terms, they must be returned at once. If any plants should arrive in poor condition, notice must be sent us *immediately*.

PLANTS OF ESPECIAL MERIT

The following ten pages describe some of our best varieties of hardy perennial plants. They are all kinds we know you will like, as we find them among the most attractive and satisfactory on our own place.

Bristol Fairy

The Better Gypsophila

Bristol Fairy is a triumphant achievement in florists' flowers. Unlike the old double Baby's Breath, which bloomed once and was gone, and unlike the annual sort which had to be sowed many times a season, it continues to bloom from early summer until hard frost. Its points of superiority are:

Greater Size: Its flowers are two to three times as large as the old double Baby's Breath.

Earlier: Comes in two weeks earlier, blooming in early June near Philadelphia and in mid- and late June in Connecticut, just in time for June weddings.

Better Habit: More graceful, with better poised and spaced flowers on plants 3 feet or more in height and spread.

Everblooming: Occasional basal shoots spring from the ground after the main crop has passed, producing a mass of fine white flowers. Shorter side sprays are steadily produced until stopped by winter.

Dries Perfectly: Keeps its pure white color when dried and retains its grace, even in the stiff and brittle dried state.

Large, field-grown roots: \$2.00 each *postpaid*.

Painted Daisy

(See front cover)

Pyrethrum Hybridum. There are probably none of our hardy perennial plants that are more satisfactory than Painted Daisies. The bright-colored, daisy-like flowers are borne in great profusion on long graceful stems that are most excellent for cut-flowers, making very pretty bouquets, either alone or in combination with other flowers. The flowers are 2 to 3 inches in diameter and are in beautiful shades of pinks and reds, with bright yellow centers. The plants are exceedingly hardy, of a nice height, and do well in most any soil in either sun or partial shade. 3 ft. high.

Lately we have taken a great deal of pains to get some especially good varieties sorted out. This year we can offer very limited stocks of four separate varieties. They have all bloomed and been very carefully handled so you will surely get the kind you order. The plants are all good sized field-grown plants.

Firefly. A splendid single-flowered crimson with yellow center. \$1.00 each.

Pearl. Single flowers of beautiful soft pink. \$1.00 each.

Queen Mary. Large double flowers of handsome shell pink. A good robust grower. \$2.00 each.

General Jackson. The most vigorous growing of the double varieties. The flowers are large, full double and of an attractive crimson shade. \$2.00 each.

Mixed Colors. A magnificent assortment of colors and types. Some are semi-double, some with long twisted petals and some have broad overlapping petals. Our plants are all young plants that have just commenced to bloom this last summer. 50c each; \$4.50 per 10. 25 for \$10.00 *postpaid*.

HARRIS' HARDY PERENNIAL PLANTS

Bleeding Heart

Bleeding Heart

Dielytra Spectabilis. The beautiful old-fashioned flower that is loved by everyone. The long branches of graceful heart-shaped pink and white flowers are delightfully attractive in the early summer and the delicate fern-like foliage is very pretty during the rest of the season. Very large field-grown plants. *\$1.00 each; 3 for \$2.75 postpaid.*

Artemisia or Hawthorn-Scented Mugwort

Lactiflora. (4 ft. high. White). A most useful and effective flowering plant for the border. The erect stems are terminated by graceful panicles of creamy-white Spirea-like flowers that are fine for mixing with bouquets. It is in bloom from mid-August until the end of September, while the deep cut, dark green foliage is attractive throughout the entire season. Large plants. *35c each; \$3.00 per 10 postpaid.*

Monarda or Bee Balm

Cambridge Scarlet. For a bit of real brilliant red in your hardy garden we can suggest nothing better than Monarda. Also called "Scarlet Balm," "Mountain Mint," "Sweet Mary," "Square Stalk," etc. The fragrant brilliant scarlet flowers are borne in large heads on stalks 2 to 4 feet high. When massed in the border, its great brilliancy is very effective throughout mid-June to August. The plant is so hardy and persistent that it will thrive under almost any circumstances, although its natural habit is in damp places. We have exceptionally fine, large plants. *25c each; \$2.00 per 10 postpaid.*

Harris' New Giant Physostegia

Virginiana. (5 ft. high. Pink). An American plant, and by no means a new one; yet it is a flower so unique in its make-up that it stands apart from all other varieties. For planting with shrubbery, or for cut blooms, it is unrivaled. Its large, graceful spikes of pink flowers are produced from about the 1st of July and, if kept cut, continues to flower until frost. The flowers resemble large heather. The stems are long and rigid, holding the flowers in a dignified and stately manner when upon the plant and when cut. The plants form large, dense clumps, 4 to 5 feet high, and require no petting, succeeding on all kinds of soil and in all situations. In this new strain the plants are much larger and more vigorous than in the ordinary Physostegia. The flowers are twice as large and the spikes are longer, having many more flowers open at once. *25c each; \$2.00 per 10.*

Oriental Poppies

Scarlet. For brilliant display in the early summer there is no plant that surpasses the Oriental Poppies. A group of these large, bright-scarlet poppies in the border always have a startling effect when they suddenly burst into bloom like a blaze of fire. Once planted they will rapidly increase and become large clumps. *25c each; \$2.00 per 10 postpaid.*

Prince of Wales. (Salmon). Though one usually thinks of Oriental Poppies being a brilliant red, our rows of salmon-pink in the field this spring made a strong appeal to everyone who saw them. The immense bright, deep salmon is a very delightful color. *50c each; \$4.50 per 10 postpaid.*

Japanese Balloon-Flower

Platycodon grandiflorum. Here is a tall blue-flowered perennial that should be better known. The long stems each carry several bright clear blue bell-shaped flowers that resemble balloons before they open up. Our plants are of the more rare upright growing variety. Large plants. *35c each; \$3.25 per 10 post paid.*

New Shasta Daisy

Giant Alaska. A greatly improved type of that favorite white Shasta Daisy. The flowers are larger and the plant grows taller and is more full of blooms. For a mid-summer white for both the border or cutting this can not be excelled. *25c each; \$2.00 per 10, postpaid.*

Pink Beauty

Sidalcea, Rosy Gem. (5 ft. tall. Pink). Of all the rare perennials that have been lately introduced, this is the best one we have discovered. The flowers are an attractive shade of rosy-pink and of a mallow-like form about 1 ½ inches in diameter. They are closely arranged on long graceful spikes about 5 feet high. The plant is perfectly hardy without protection, will do well in the open sun and needs no especial treatment. This uncommon plant has so much to commend it we want you to try it. *35c each; \$3.00 per 10 postpaid.*

Astilbe

Here is a plant that should surely be in every hardy garden. It is of strong vigorous growth, producing feathered heads or plumes of white or pink flowers during mid-summer. They succeed best in a half-shady moist position, although they will do well in any good garden soil. 2 ½ feet high. Our plants are all very large, heavy, field-grown plants that will bloom satisfactorily next July.

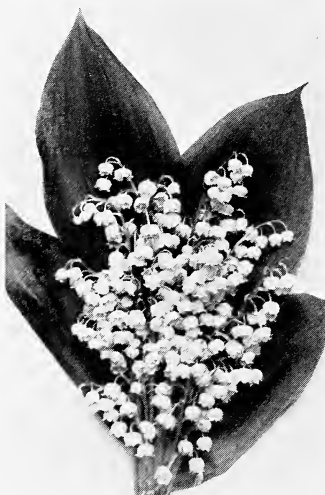

Gladstone. The best white variety. Large pure white plumes borne in profusion throughout a long season. *60c each; \$5.50 per 10.*

Peach Blossom. An unusually fine light pink sort. A sure bloomer with large plumes and the same season as Gladstone. *60c each; \$5.50 per 10.*

Gloria Superba. A beautiful bright rosy-pink, much deeper in color than Peach Blossom and ten days later. It is also a little taller. *70c each; \$6.50 per 10 postpaid.*

Lily-of-the-Valley

Convallaria Majalis. Everyone is fond of Lily-of-the-Valley, and a good bed of them is something to be proud of. If planted in shady or partially shaded spot where they can have plenty of good mellow soil, they will thrive and be beautiful for years with practically no attention. Of all the beautiful varieties of perennials they are the easiest to grow. Our plants are good field-grown plants, two years from Berlin Pips, and plants for the garden, not the pips used by florists for forcing. They are in the very best of condition for transplanting, and if planted early will give an abundance of bloom next spring. *20c each; \$1.75 per 10 postpaid; \$16.00 per 100 not postpaid.*

Lily-of-the-Valley

Pink Astilbe

HARRIS' HARDY PERENNIAL PLANTS

Moreton Hybrid Delphinium

Delphinium or Hardy Larkspur

There are few plants that will give you as much satisfaction as good Delphiniums. The tall, stately plants are among the most beautiful and picturesque for the border. Growing to a height of 4 to 6 feet, the many more immense spikes of beautiful flowers in every imaginable shade of blue, add more beauty to the garden than any other one plant.

Moreton Hybrids. The result of years of careful selection and breeding to get a strain of Delphiniums that would produce the best colors. Each plant now produces large, stately spikes of flowers varying from very light clear-blue to the deeper-shades. Our plants are exceptionally fine two-year field-grown plants that will give you wonderful flowers next summer. *25c each; \$2.20 per 10; \$5.00 for 25 postpaid.*

Bella Donna. This is the beautiful light, blue Delphinium so universally admired. The clear turquoise-blue flowers are distributed so gracefully along the tall stems. Large two-year plants. *25c each; \$2.20 per 10; \$5.00 for 25 postpaid.*

Butterfly Delphinium (*Chinensis*). A distinctly different type. The plant is lower growing and of a more spreading habit. Blooms most all summer and they are fine to cut for bouquets.

Good large plants of either *White*, *Dark Blue*, or *Light Blue*. *25c. each; \$2.25 per 10 post paid.*

Scabiosa or Blue Bonnet

Caucasica Perfecta. There are few perennial flowers that are better for cutting than *Scabiosa Caucasica*. The flowers are a very beautiful shade of clear lavender or light-blue. They are 2 ½ inches in diameter and are borne on long clean stems that are most excellent for cutting. We know of no flower that is the same handsome shade of blue, nor one that lasts as long in water. The plants are hardy after once established and they need no protection. *35c each; \$3.25 per 10, postpaid.*

Aquilegia or Columbine

Harris' Exhibition Hybrids. (3 ft. high. Mixed Colors). Without a doubt Long-Spurred Columbines are the most charming of all flowers. The delicacy and gracefulness of shape and the beautiful tones in coloring all combine to make Columbines unsurpassed in beauty. The plant is as attractive as the flowers, the foliage remaining a delicate green throughout the entire season. The plants are perfectly hardy and prefer a partially shaded position. Our Exhibition Hybrids are the very best strain of *Aquilegia* grown and our large field-grown plants are especially good. *35c each; \$3.00 per 10 postpaid.*

Achillea

Ptarmica, "Boule de Nieve." (1½ ft. high. White). Besides its beauty in your plantings, you will find it splendid for winter bouquets, if picked before the flowers are quite fully open and hung upside down in small bunches in a dry, dustless place. The plants are covered with a great profusion of small, double, pure-white flowers in clusters. *Plants 20c each; \$1.75 per 10 postpaid.*

Harris' New Hardy Carnation

This is one of our best hardy plants. It is a true Carnation that can be planted in the garden this fall and will live over winter. About the middle of next June it will be a veritable mound of bright double flowers, with a delicious clove-pink fragrance. The flowers have good stems, making them fine to cut for bouquets. Do not neglect to include a few plants in your order, as our plants are exceptionally fine this fall. *20c each; \$1.75 per 10 postpaid.*

Harris' New Hardy Carnation

Achillea, Boule de Nieve

PEONIES

Peonies are not difficult to raise, and once established, they are most satisfactory. They may be planted in clusters in a separate bed, or in clumps in front of the border or as single specimens in the lawn. They like a good, deep well drained soil, and plenty of water during the growing season. Do not confuse our plants with the usual small divided roots.

Edulis Superba. A very early bright pink of the crown type. The blossoms are very large, often measuring 7 inches across, and have a pleasant fragrance. It is a strong grower and a prolific bloomer.

Triomphe de l'Exposition de Lille. Semi-rose type. Pale hydrangea-pink, splashed with violet tints, guard-petals fading to nearly white. Very large, compact bloom, and a free-flowering, strong, vigorous grower. Mid-season. Useful for cutting or mass planting.

Purpurea. Big dark-red crown type flowers borne in great numbers. Midseason.

Triumph du Nord. An old standard and one of the best. The flowers are exceedingly large and of a purplish-pink color, shaded a fleshy pink.

Antoine Poiteau. A soft, fleshy pink, mid-season sort. This variety is extremely hardy and a prolific bloomer. It may be depended upon to always produce an abundance of flowers.

Festiva maxima. Conceded to be the most popular of all the Peonies. Very large, clear white flowers, prominently flecked crimson, the outer petals sometimes tinged lilac-white on opening. Very tall and erect and equally useful for massing or cutting.

Couronne d'Or. With a ring of showy yellow stamens, around a center tuft of carmine tipped petals. Medium in height, very free blooming, one of the best late whites.

Price. Good blooming roots of any of the above varieties for *65c each; \$6.00 per 10, postpaid.*

Special Peony Collection of one root each of the seven kinds for *\$4.00, postpaid.*

HARRIS' BEARDED IRIS

No Garden is Complete Without Iris

With no other one group of plants is it so easy to get such gratifying results, because the culture is very simple and the flowers so delightful. Following the gorgeous show of flowers in the spring, the bright green foliage is attractive for the balance of the season.

Plant Only the Best Varieties

We have taken a great deal of pains to select for you the very finest of the innumerable varieties of Iris. They are all the large - flowering kinds, with broad, ruffled petals, and in a selection of the best colors. Our plants are unusually good and are true to name.

Harris' Finest Iris

Queen of May. Large flowers of an attractive orchid shade. Broad ruffled petals of a clear, amethyst blue. 20c each; \$1.75 per 10 postpaid.

Lohengrin. Large ruffled flowers, the petals shading to deep purple, giving a general color of lobelia blue. 30c each; \$2.75 per 10 postpaid.

Her Majesty. A medium sized "red" that is an attractive and lively color, much the same as Queen of May, except that the falls are a deeper shade with more pronounced veining. 30c each; \$1.75 per 10 postpaid.

Perfection. A good vigorous growing dark blue with broad, ruffled petals. 20c each; \$1.75 per 10 postpaid.

Mme. Chereau. An early, tall white edged aniline blue, with good sized, well-ruffled flowers. Very snappy appearing. S. and F. White. 20c each; \$1.75 per 10 postpaid.

Honorabilis. A bright and attractive combination of yellow and brown. What it lacks in size it makes up in profuseness of bloom. A clump of these are a pretty sight. 20c each; \$1.75 per 10 postpaid.

Mrs. H. Darwin. A free-flowering pure white, falls very slightly penciled at base. 25c each; \$2.25 per 10 postpaid.

Aurea. A tall, deep, golden-yellow. The best clear yellow. 25c each; \$2.25 per 10 postpaid.

Iris Mixture. A mixture of many of the varieties named below for \$1.25 per 10 postpaid.

Bearded Iris (1) Honorabilis (2) Queen of May (3) Perfection

JAPANESE IRIS

Japanese Iris wind up the Iris season in a blaze of splendor in July. They succeed in almost any position where they can have good rich mellow soil and plenty of water. The flowers if cut while in bud will last a long time in water. Our varieties are of the immense six-petaled kinds and the plants are exceptionally good large field-grown plants.

White. Large pure white flowers with golden marking at the center. 30c each; \$2.75 per 10 postpaid.

Blue. Immense blooms of clear deep blue. Very fine. 30c each; \$2.75 per 10 postpaid.

Purple. Mammoth flowers of a rich, velvety, royal-purple. 30c each; \$2.75 per 10, postpaid.

Mixed Colors. A mixture of the above named three kinds. \$1.20 per 5; \$2.25 per 10 postpaid.

PHLOX

One of the most satisfactory of the hardy perennials. Magnificent when planted in clumps, one season of bloom following the other very closely, making a continual show of color. Our roots are exceptionally fine, large, healthy roots that will give good blooms next summer.

Rockery Plant Collection

As an extra inducement we are making two special offers for collections of rockery plants.

Rockery Plant Offer No. 3. This assortment contains 25 plants of at least 5 different varieties, our selection, for \$3.00 postpaid.

Rockery Plant Offer No. 4. 50 plants of at least 8 different varieties, our selection for \$6.50 postpaid.

CLIMBING VINES

We have some exceptionally fine plants of hardy vines for planting out this fall. They are the most satisfactory kinds for growing on porches or trellises and if they are carefully planted in good rich soil, they will make an excellent showing next summer. If the soil where they are to be planted is not very good, dig a pit 2 to 3 feet deep and fill it up with good rich soil. It is a good idea to put manure or sods in the bottom of the pit.

Honeysuckle

Hall's Japan. The extremely fragrant flowers are borne in profusion during the summer. The color is a pretty intermingling of white and yellow. Does fairly well in partial shade. *45c each; \$4.00 per 10 postpaid.*

Boston Ivy

Ampelopsis Veitchi. The most popular vine, and the only vine we have that will cling to brick or wooden walks without any trellis or support. The foliage is a rich green in summer and changes to various shades of bright red in the fall. When the plants once become established they grow very rapidly. Good strong plants *60c each; 3 for \$1.50 postpaid.*

Dutchman's Pipe Vine

Aristolochia Siph. It is not possible to find a more satisfactory porch vine. The leaves are so large and dense that they make a really good screen. It is a vigorous and rapid grower, if good plants are carefully set in. Our plants are large, well-rooted field-grown plants that will make a good vine next summer. *\$1.00 each; 3 for \$2.75 postpaid.*

Virgin's Bower

Clematis Paniculata. One of the choicest hardy vines, succeeding well in almost any location and will soon cover a porch with dense green foliage and clusters of deliciously fragrant flowers. During August and September these flowers are borne in greatest profusion. It is also used as a trailer for planting on sloping banks, etc. Large field plants. *50c each; 3 for \$1.25 postpaid.*

Wisteria

Sinensis. The most floriferous of all hardy vines and a great favorite. A good well grown vine produces thousands of clusters of richly perfumed violet-blue flowers. The plants should be very liberally fertilized when first planted. *80c each; 3 for \$2.10 postpaid.*

ADDITIONAL LIST OF HARDY PERENNIAL PLANTS

All Choice Varieties and Large Plants

	Postpaid	
	Each	10
Anchusa Italica, Dropmore Variety. A tall growing clear blue for background planting. 5 ft. high.	<i>\$.25</i>	<i>\$2.25</i>
Aster, Hardy. St. Egwin. Tall growing, with a profusion of single pink flowers, late in the fall.	<i>.20</i>	<i>1.75</i>
Aster, Hardy. White Queen. Tall white flowered.	<i>.20</i>	<i>1.75</i>
Aster, Hardy. Climax. A handsome lavender-blue.	<i>.20</i>	<i>1.75</i>
Arabis Alpina. (Rock Cress). A low growing, early flowering white for rockeries and edgings. Blooms earlier than Candytuft and Alyssum.	<i>.20</i>	<i>1.75</i>
Boltonia Latisquama. Clusters of pink single flowers in September, borne in great profusion on plants 5 ft. tall.	<i>.25</i>	<i>2.25</i>
Bocconia Cordata. (Plume Poppy). Very tall plants with large leaves and plumes of pinkish flowers. Fine background subject.	<i>.20</i>	<i>1.50</i>

Centaurea Montana. (Hardy Bachelor Button). Two feet high with blue, oddly formed flowers from May until September.	<i>.15</i>	<i>1.25</i>
Coreopsis lanceolata. Bright yellow flowers borne in profusion on long stems for cutting.	<i>.15</i>	<i>1.25</i>

"Your plants were packed the nicest way. All carried well and were as fresh as if from the next neighbor." Margaret Roller, Stony Creek Mills, Pa.

HARRIS' HARDY PERENNIAL PLANTS

	Each	Postpaid 10
Dianthus Plumarius. (Hardy Spice Pinks). Double Mixed Colors. An old garden favorite. Blooms all summer and the foliage remains a bright blue-green all season. Grows well even in poor soil providing it is in full sunlight. 1 ft. high.	\$.15	\$1.25
Digitalis. (Foxglove). A clump of the tall stately spikes make a beautiful display in any garden. 4 ft. high. Splendid plants in mixed colors.25	2.25
Doronicum (Leopard's Bane). A splendid yellow, daisy-like flower on long stems. Blooms continually from early spring until fall. One of our best perennials.35	3.25
Euphorbia Corollata. Sprays of tiny white flowers for bouquets.20	1.75
Eulalia Japonica. An ornamental green and white grass.20	1.50
Echinops Ritro. (Globe Thistle). Heads of steel-blue, thistle-like flowers that are fine to cut for winter bouquets. 4 ft. high.25	2.00
Foxglove. See Digitalis.		
Gas Plant. (Dictamnus). Beautiful as single specimens in the lawn or the border. Wonderful large 5 yr. plants. White flowers.	1.00	9.00
Funkia lancifolia variegata. (Day Lily of Plantain Lily). The most attractive variety of this splendid plant. The broad crinkled leaves are bright green, margined and striped with white. It is a plant well suited to decorate the lawn, plant in front of the shrubbery, or for rockwork.25	2.25
Gaillardia. The Dazzler. (Blanket Flower). Beautiful yellow and red flowers that are excellent for bouquets. 2 ½ ft. high.20	1.50
Gypsophila Paniculata. (Hardy Baby's Breath). Large sprays of fine white flowers for use in bouquets	.25	2.00
Heliopsis Scabra Excelsa. (Hardy Zinnia). Yellow double flowers on plants 4 ft. high. Fine for the border or cutting. Blooms all summer.35	3.00
Hardy Pinks. (Dianthus Plumarius). Double mixed colors.15	1.25
Hemerocalis Flava. (Lemon Lily). Long ribbon-like leaves with yellow lily-form flowers in June. 3 ft. high.25	2.00
Hemerocalis Kwanso, Double. Large, semi-double orange flowers in July and August.35	3.25
Hollyhocks, Chater's Double. There are no flowers more showy than the bright colored Hollyhocks. Mixed colors only.15	1.25
Lupinus polyphyllus. (Hardy Lupins). A very satisfactory and attractive plant that is rapidly becoming more popular. The numerous spikes of pea-like flowers are very attractive. 3 ft. high.20	1.75
	Mixed Colorse	.20

Plants Sent Prepaid

To points east of the Mississippi River.

For points farther west and Canada, add 10 per cent to the prices. See page 20.

"The plants you sent me last fall were wonderful. Every one in perfect condition and every one lived. They were in better condition than any I ever received from any plant house. The packing was perfect and I think a wonderful record for the distance." Mrs. R. P. Short, Wilbur, Wash.

HARRIS' HARDY PERENNIAL PLANTS

Veronica spicata (Speedwell). Numerous spikes of light blue flowers in July. 1 ½ ft. high. Does well in most any location.....	.25	2.25

SPECIAL BARGAIN OFFER OF HARDY PLANTS

Due to the fact that during our packing season we daily have temporary surpluses of different varieties of plants in our packing room, we are able to make up a real bargain assortment of 25 plants, of choice varieties of Hardy Perennials in a mixture of at least 5 varieties, **our selection.**

These are all plants of our regular good quality and taken from the varieties described on these pages, and are not, in any way, inferior plants. This is a fine collection of Hardy Plants at a real bargain.

HARDY PLANTS OFFER No. 1—This assortment contains 25 plants of at least 5 varieties which grow about 1 ft. to 2 ft. high, our selection. For \$3.50 postpaid.

HARDY PLANT OFFER No. 2—25 plants of at least 5 varieties which grow 3 ft. to 5 ft. high, our selection. For \$3.75 postpaid.

Simply order Hardy Plant Offer No. 1 or No. 2.

Harris' Special Bulb Dish

We have especially made for us, a unique dish for growing bulbs in the house. It is an attractive oval-shaped, water-tight, metal dish, dark green in color. The oval shape is desirable, allowing it to be set on a window sill, and it will not leak. It is also indestructible and can be used again next year. It will hold 4 Exhibition Hyacinths, 4 Daffodils, 6 Paper Whites, or 8 Tulips.

Price: 35c postpaid when included with a bulb order; 45c postpaid when ordered separately.

Prepared Bulb Fiber

This is the ideal material in which to grow all Dutch Bulbs when using dishes or pans without drainage. When using soil, unless there is good drainage to carry off the surplus water, the soil becomes sour and musty, injuring the bulb roots. Our Prepared Bulb Fiber is a special preparation of our own that remains sweet and friable no matter how much water is used. It absorbs the water like a sponge, giving it to the plants as necessary.

We recommend the use of Prepared Bulb Fiber when using Harris' Special Bulb Dish. The bulbs are potted in the same way as when using soil. *Price: 15c per qt.; 4 qts. 50c; 85c per peck postpaid; \$3.00 per bushel, not postpaid.*

Colored Pearl Pebbles

Here is something new for growing bulbs in, or for decorating the flower pots. When growing narcissus in a glass bowl, use these bright colored Pearl Chips: they make a very pretty dish. Another favorite method is to spread a layer of them over the top of the earth or Bulb Fiber in the pots or Bulb Dishes and you will be surprised how it will "dress up" a dish of bulbs. They are highly colored Mother-of-Pearl chips in a mixture of bright colors. *25c per lb. or \$1.00 for 5 lbs. postpaid.*

Artemisia Astilbe Japanese Iris
Photograph showing the splendid character of the roots we send you.

A GOOD TIME TO MAKE A LAWN

There is no better time to sow Lawn Grass seed than September. It is the natural time for grass to scatter its seeds. The days are shorter than in the spring and the sun is not so hot, which gives the young grass a better chance to get started.

The two most important points to remember when making a lawn are to prepare the land thoroughly and get good seed.

In making new lawns the ground should be thoroughly prepared and enriched the same as for any garden crop. The surface should be raked off, rolled smooth and even, so there will be no holes or uneven places in the lawn. If the soil is poor and hard, as is the case around newly built houses, some good soil should be spread on the surface an inch or two deep. On this should be applied a dressing of bone meal, or some other good fertilizer, at the rate of about 1 pound to 50 square feet; more would do no harm. After seeding, the land should be rolled or raked lightly so as to cover the seed.

To renew old lawns rake thoroughly, stirring the ground as much as possible without killing the grass. All moss and weeds should be removed as far as possible. Sow half as much grass seed as recommended for seeding a new lawn. After seeding, the lawn should be rolled.

Harris' Superfine Lawn Grass Seed

There are only a very few kinds of grasses suitable for lawns. Seeds of these fine kinds are much more expensive than the seeds of other less desirable grasses, most of which make good hay, but do **not** make good lawns. The cheap seeds will often grow and cover the ground with green, but eventually the lawn will deteriorate and have to be remade, which is a very expensive and troublesome thing to do.

Harris' Superfine Lawn Grass Seed is composed of the **purest** seeds of the three or four most desirable grasses for lawns. They are all tested for purity and germination before being mixed together and none are used which do not come up to the highest standard of excellence. These grasses will form a thick fine sod that will stand drought well and maintain a thick, soft turf for many years.

The best results are obtained by sowing the seed quite thick—1 lb. or quart to 200 or 300 square feet, but sowing one pound on 400 to 500 square feet will make an excellent lawn although not quite as quickly.

Full directions for making a lawn are contained in a little pamphlet, which will be sent with any order without charge if requested.

Price of Harris' Superfine Lawn Grass Seed.

1 lb. or qt.	enough for	300 to	400 square feet.....	\$.55
5 lb.	enough for	1500 to	2000 square feet.....	2.50
10 lb.	enough for	3000 to	4000 square feet.....	4.80
25 lb.	enough for	7000 to	10,000 square feet.....	11.25
Each additional pound.....				.45

We shall be glad to make lowest possible price on large lots. Please write us.

GRASS SEED FOR SHADY LAWNS

This mixture is composed of the few kinds of grasses that grow best in shady places. These grasses will grow and make a good sod under trees and in the shade of buildings where the common kinds of lawn grass would not do well.

Lawn Grass for Shady Spots. Pound 80c; 5 lbs. \$3.75; any greater quantity 75c per lb.
